Magnetic Insect Screens

MagicSeal Magnetic Insect Screens are for people who want . . .

- A perfect fit
- No gaps
- Unobtrusive good looks
- Ease of use
- Easy cleaning
- Durability

"MagicSeal Insect Screens work brilliantly. They are effective, easily removed, washed and replaced, good looking and well crafted. Very highly recommended after 3 years of use."

D. Johnson

Retractable insect screens

A stylish, practical alternative to fixed screen doors, and perfect for those difficult to screen openings such as French doors, bi-folds, stackers and sliders.

Double glazing for existing windows

Reduces heat loss by up to 35% and can significantly reduce disturbance from traffic and other sources of nuisance noise, cuts out harmful UV rays and eliminates most condensation problems instantly.

MagicSeal Insect Screens – Simply the best alternative for outward opening windows!

Windows that open outwards require insect screens to be fitted on the inside of the window frame. Because the screens will be seen from inside the home it is essential they are attractive and blend well with the window frame and furnishings.

MagicSeal insect screens feature a durable fibreglass mesh which is bonded under pressure between a multiple-pole magnetic strip and a 12mm (1/2 inch) colour co-ordinated PVC border. A corresponding base magnet is fitted to the inside of the window frame.

The result is a flexible insect screen which doesn't spoil the look of your windows, is easy to use, easy to clean, and totally effective because of the 'magnetic seal system' unique to MagicSeal.

MagicSeal Insect Screens
- simply the best alternative!

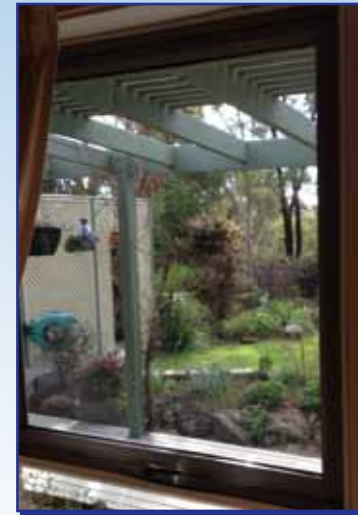

TIMBER WIND OUT

www.magneticflyscreens.net.au

MagicSeal can screen all types of outward-opening and double-hung windows. Our screens are suited to timber, steel, aluminium and UPVC window frames.

ALUMINIUM CASEMENT

PVC CASEMENT

TIMBER PUSHOUT

- MagicSeal Insect Screens are available in 9 standard edge colours, or if required MagicSeal can custom finish a screen to match any existing colour scheme.
- MagicSeal can screen most odd shaped windows including triangles and curves.
- MagicSeal Insect Screens can also be made using 'midgey mesh' fabric or 'E-Screen' fabric where privacy is required.
